# 2021 RF Product Guide

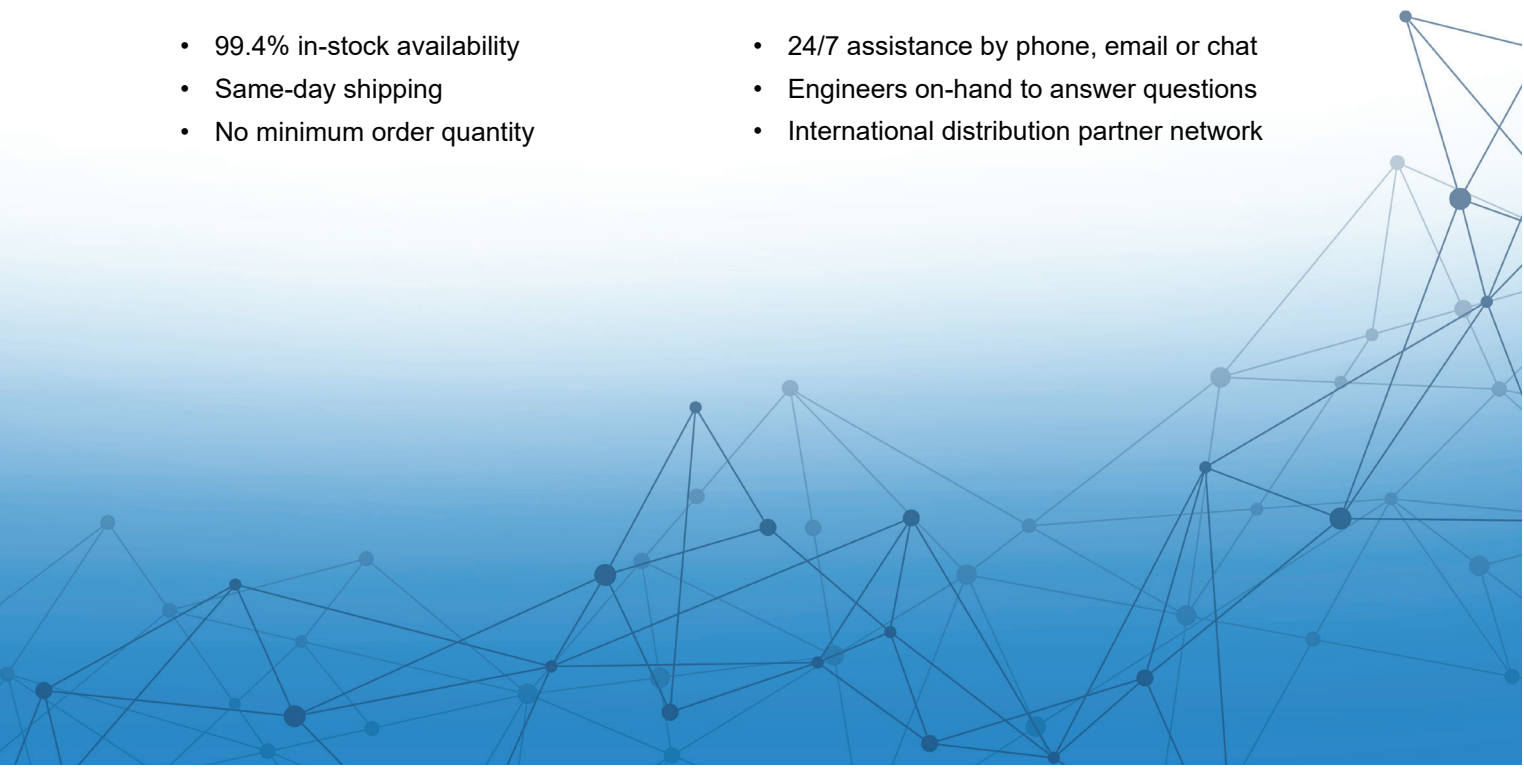

Same-Day Shipping | Largest Selection | Expert Technical Support

## With Over 45 Years of RF Expertise, It's More Than Parts That Sets Us Apart

Since 1972, Pasternack has been satisfying the urgent requirements of engineers around the world by offering the largest in-stock, ready-to-ship selection of RF, microwave, and mmWave components, assemblies and devices, including over 40,000 popular and hard-to-find items across 107 categories of interconnect, passives, actives, antennas, and test and measurement. Ranging from DC to 220 GHz maximum frequency levels, Pasternack components are used in a wide range of test, development and deployment environments for military/aerospace, telecom, commercial, and industrial applications.

- 99.4% in-stock availability
- Same-day shipping
- No minimum order quantity
- 24/7 assistance by phone, email or chat
- Engineers on-hand to answer questions
- International distribution partner network

## Largest RF Selection Available for Same-Day Shipping

- Adapters
- Amplifiers
- Antennas
- Attenuators/Equalizers
- Baluns
- Bias Tees/DC Blocks
- Cable Assemblies
- Cables
- Connectors
- Connector Accessories
- Couplers
- Educational Products
- Filters
- Frequency Multipliers/Dividers
- Impedance Matching
- Isolators/Circulators
- Limiters/Detectors
- Mixers/Modulators
- Noise Sources
- Oscillators/Synthesizers
- Phase Shifters/Trimmers
- Power Dividers/Combiners
- Rotary Joints
- Surge Protectors
- Switches
- Terminations
- Test and Measurement
- Tools
- Waveguides
- 60 GHz Systems & Modules

# Expanded Portfolio of High Frequency Components

## In Stock and Available for Same-Day Shipping!

Pasternack's RF Engineering team has curated a broad portfolio of microwave and millimeter wave components to address the needs of 5G innovation and testing, along with other applications requiring higher frequencies and greater bandwidth. Whether your high frequency requirements are for active, passive, or interconnect products, Pasternack has you covered with the industry's largest in-stock selection available for same-day shipping.

### Waveguide Components to 220 GHz

### Electromechanical Switches to 50 GHz

### Waveguide Electromechanical Switches to 40 GHz

### Test Cables and Adapters 2.92mm/40 GHz, 2.4mm/50 GHz 1.85mm/70 GHz, 1.0mm/110 GHz

### Broadband Amplifiers to 86.5 GHz

### Mixers and Detectors to 110 GHz

### PIN Diode Switches to 67 GHz

### High Frequency Power Dividers/ Couplers to 67 GHz

### Calibrated Noise Sources to 60 GHz

### High Band 5G 28 GHz and 39 GHz

# RF PRODUCT GUIDE INDEX

High-Performance Hybrid Couplers; Bi-Phase Modulators; Positive Slope Equalizers; Fixed Load VNA Calibration Kits; Vehicular Antennas, GPS Timing Antennas and Portable UHF Antenna; Waveguide Shorts and Shims; Double Ridge Waveguide Electromechanical Relay Switches; High-Performance Waveguide Antennas, etc.	<a href="#">3</a>	<b>NEW PRODUCT ADDITIONS</b>

# NEW PRODUCT ADDITIONS

## High-Performance Hybrid Couplers (See pages [272](#), [273](#))

- High operating frequency range up to 40GHz for wide band applications
- Coaxial designs with SMA and 2.92mm connectors
- Output phase shifts of 90 degree and 180 degree available
- Power handling capability up to 100W(CW)
- Very good isolation and insertion loss performances with low

- return loss
- Flat phase balance performance across frequency range

## Bi-Phase Modulators Operating in Frequency Bands from 0.5 to 40 GHz (See pages [278](#))

- Broadband frequency coverage from 500 MHz to 40 GHz
- Comprehensive selection of 9 models offered
- TTL level digital bit stream is encoded onto the RF carrier
- 2 Phase Shift Keying (2PSK) modulation at 180° and 0°
- Low insertion loss: 2.5 dB typical

- Compact packaging with SMA or 2.92mm RF female connectors
- High peak input power handling up to 0.5 watts

## Positive Slope Equalizers (See pages [82-83](#))

- Broadband frequency coverage from 500 MHz to 40 GHz
- Comprehensive selection of 18 models offered
- Fixed positive slope equalizing values ranging from 2 dB to 8 dB
- Low insertion loss ranging from 1 dB to 3 dB

- Compact packaging with field replaceable RF connectors
- High CW input power handling up to +30 dBm

## Fixed Load VNA Calibration Kits (See pages [312](#))

- Include all necessary components to perform highly accurate 1 port to 4 port calibration of VNAs
- Offer components for short open load calibration technique -or- short open load and thru method
- 7 connector series including:
  - 2.4mm, 50 GHz SOL, SOLT;

- 2.92mm, 40 GHz, SOL, SOLT;
- 3.5mm, 26.5 GHz, SOL, SOLT;
- 7/16 DIN, 7.5 GHz, SOL, SOLT;
- 7mm, 18 GHz, SOLT;
- BNC, 10 GHz, SOLT;
- N-Type, 18 GHz, SOL, SOLT

## Vehicular Antennas, GPS Timing Antennas and Portable UHF Antenna (See pages [60](#), [62](#), [63](#))

- Broad selection of vehicular antennas and antenna kits
- 108 MHz – 2.7 GHz operating frequencies, 0-32 dBi
- Ideally suited for multi-point mobile applications, including service vehicles, public transportation, public safety, mining, construction, and other mobile, wide-coverage applications

## Waveguide Shorts and Shims in WR-430 to WR-10 Waveguide Sizes (See pages [348-349](#))

- Frequency ranges from 1.72 GHz to 110 GHz in 18 waveguide bands
- Waveguide sizes from WR-10 to WR-430
- Parts made with high-precision machining in aluminum or brass
- Large product selection available

## Double Ridge Waveguide Electromechanical Relay Switches (See pages [341](#))

- Comprehensive selection of 12 double ridge WG EMS models
- Broadband multi-octave frequency: 6.5 GHz to 40 GHz
- SPDT and optional DPDT configurations with latching self cut-off actuators, TTL logic, and position indicators with manual override

- Power handling capability up to 8.5 kW CW
- Designs support WRD-650, WRD-750, and WRD-180 waveguide sizes
- Patented motor drive with arc suppression
- Environmentally sealed quick connect DC control connector & mate included

## High-Performance Waveguide Antennas (See pages [327-328](#), [331-332](#))

- Complete line of high-performance waveguide antennas, with operating frequencies from 1.7 to 220 GHz
- Ideal for applications such as: Antenna Measurements, Laboratory Use, Wireless Communications, Microwave Radio Systems

Technical Support  
+1 (949) 261-1920

Same-Day Shipping,  
Even Custom  
Cable Assemblies

# NEW PRODUCT ADDITIONS

## High Frequency Waveguide Components for Transmission Lines (See pages [332-333](#), [345-346](#), [348](#))

- High frequency ranges from 90 GHz to 220 GHz in 3 waveguide bands
- Waveguide sizes: WR-8, WR-6 and WR-5
- UG-387/U mod round cover style flange
- Large product selection available

## New Class AB High Power Amplifiers with Optional Heatsinks (See pages [53](#), [56](#))

- 18 new class AB broadband power amplifiers support popular octave bands ranging from 20 MHz to 18 GHz
- GaN, LDMOS, and VDMOS designs feature high linearity and efficiency with low distortion over a wide dynamic range
- Saturated output power levels ranging from 10 watts to 200 watts with up to 40% power added efficiency
- Power gain levels range from 37 dB to 53 dB
- D-Sub control connectors for DC bias, enable with TTL logic control, current and temperature sense functions
- Compact and rugged coaxial packages have optional heatsink with cooling fans available

## Coaxial RF Surge Protectors with 4.3-10 Connectors (See pages [287](#))

- 4.3-10 F/M Bulkhead Coaxial RF Surge Protector
- Frequency Range: 698MHz - 2.7GHz
- Low PIM -173 dBc

## High Power Attenuators with Frequency Coverage of 6 GHz and 18 GHz (See pages [72](#), [75](#))

- Support frequency range from DC up to 18 GHz
- Power handling capability up to 100W(CW)
- Coaxial designs with SMA and N-type connectors
- Flat RF response and performance
- VSWR as low as 1.2:1
- Available with 3 dB to 40 dB attenuation levels

## Frequency Dividers in Rugged and Compact SMA Connectorized Packages (See pages [276](#))

- Comprehensive selection of 28 different prescaler models
- Broadband input frequency coverage from 0.1 GHz to 20 GHz
- Broad selection of divide-by-ratios ranging from 2 to 40
- Input power range from -20 dBm to +15 dBm
- Output power levels range from -6 to +5 dBm
- Low phase noise down to -155 dBc/Hz typical @ 100 kHz offset
- Compact coaxial packaged assemblies guaranteed to meet MIL-STD environmental test conditions

## High Frequency Couplers with Low Insertion Loss and Low Return Loss (See pages [268](#), [270](#))

- Directional couplers with high operating frequency range up to 67 GHz for wide band applications
- Coaxial designs with SMA, 2.92mm, 2.4mm and 1.85mm connectors
- Power handling capability up to 30W(CW)
- Excellent isolation and insertion loss performances with low return loss
- Available with 6dB, 10dB, 15dB, 20dB and 30dB coupling levels

## RF Limiters with Frequencies up to 40 GHz (See pages [279](#))

- Broadband Frequency Coverage from 20 MHz to 40 GHz
- 13 Different Models Offer Comprehensive Performance Features
- CW Input Power Rated up to 5 watts
- Peak Power Handling Capability of 200 Watts
- Flat Leakage Power Ranges from +10 dBm to +18 dBm
- Compact Packages with Field Replaceable Connectors and Thru Mounting Holes
- Models are Designed to Meet MIL-STD-202 Test Conditions

## Aluminum Waveguide-to-Coax Adapters, MIL-DTL-22641 compliant (See pages [329-331](#))

- Aluminum body for reduced weight
- Electrical performance and mechanical dimensions compliant with MIL-DTL-22641
- 14 different waveguide sizes available from WR-42 to WR-430 (Frequency range from 1.7 to 26.5GHz)
- VSWR as low as 1.25:1
- Flange types: UG square/round cover, CMR or CPR
- Available in SMA female, N-type female and 2.92mm female connectorized designs, as well as end launch connector configurations

## EDUCATION PRODUCTS

### 60 GHz Development System

The Pasternack 60 GHz development system provides rapid evaluation of Pasternack's 60 GHz waveguide modules for quick prototyping for millimeter wave wireless system development. This high speed wireless 60 GHz developer kit is created in a partnership between Pasternack and Vubiq (pronounced "View-bik"), an industry expert in designing 60 GHz RF systems. Our 60 GHz wireless development system makes it easy and fast to design new products and applications in the emerging unlicensed millimeter wave ISM V band.

This 60 GHz wireless communications development system facilitates an accelerated design of new high bandwidth products and solutions. This Pasternack 60 GHz development kit utilizes a convenient to use GUI for configuration via USB. A standard WR-15 V-band waveguide antenna interface is incorporated into this millimeter wave system and has a 1.8 GHz modulation bandwidth. 802.11ad and 802.11aj WiFi / WiGig development is supported by the 60 GHz wireless communication system.

60 GHz Development System and Waveguide Modules is a versatile toolkit that allows imagining and designing applications in the readily accessible ISM band. The below list illustrates possible usages of the system and modules:

- High bandwidth data links, supporting multi-gigabit data rates such as gigabit Ethernet data communication
- Wi-Fi, 802.11ad and 802.11aj
- High speed video and audio solutions
- High bandwidth modulation techniques using Quadrature Amplitude Modulation (QAM) and Multiple Input Multiple Output (MIMO)
- High-Definition Serial Digital Interface (HD-SDI) video links
- High resolution radar using Frequency Modulated Continuous Wave (FMCW) modulation
- Building-to-building high speed networks
- High resolution synthetic aperture radar (also using FMCW modulation)
- Remote sensing
- Atmospheric radiometers (receive only) for oxygen and atmospheric research
- Liquid level detection
- Military applications

### 60 GHz Modules

The 60 GHz transmitter and 60 GHz receiver modules open up ultra high speed, high bandwidth data transmission for widespread use. Pasternack 60 GHz waveguide modules utilizes the globally unlicensed millimeter wave spectrum of 57 GHz to 64 GHz. Our wireless 60 GHz waveguide transmitter and receiver components are ideal for meeting the high speed data transmission needs of companies and developers.

These silicon germanium (SiGe) chip based 60 GHz transceiver modules are lower cost and easier to integrate than existing competing products. Pasternack's 60 GHz V band wireless solution is equally effective at a fraction of the cost and can be connected to any off-the-shelf WR-15 waveguide through the UG-385/U flange. Lower cost, ease of use and ability to attach standard components make these 60 GHz Tx and Rx units practical for a wide range of configurations and budgets.

For typical 60 GHz waveguide module applications please refer to the 60 GHz-Development Section above.

## Gain Horn Antennas

Pasternack's high gain WR-15 horn antennas operate between 50 GHz and 70 GHz and are available in 20 dBi, 24 dBi, 34 dBi and 42 dBi gain models. Pasternack's WR-15 waveguide horn antennas pair seamlessly with the recently added 60 GHz transmit/receive development system (PEM003-KIT) which enables companies to experiment and develop applications in the globally-unclassified 60 GHz frequency band. Using two of Pasternack's WR-15 beam antennas rated to 42 dBi gain (PE9881-42), a user is able to transmit and receive a 60 GHz signal at a distance of one kilometer (km), making these antennas an ideal solution for high frequency point-to-point backhaul.

Additionally, Pasternack offers an omni-directional millimeter wave antenna (PE-W15A001), a vertically polarized WR-15 waveguide connected antenna using a standard UG387/U flange that operates between 58 GHz and 63 GHz. This omni-directional millimeter wave antenna has a 30 degree vertical beam width and a 360 degree horizontal gain variation, making it ideal for short range wireless communications, indoor networks, high frequency applications and 60 GHz development systems. The millimeter wave omni-directional antenna is constructed with a durable brass waveguide input and light-weight aluminum body.

Freq. Range (MHz.)	Waveguide Size	Interface Type	Gain	ECCN	Model No	1	2-4	5-9	10+	ROW

# Adapter Selection Guide

## 3 Easy Ways to Find your Product.....

### 1. Search by PE Part Number

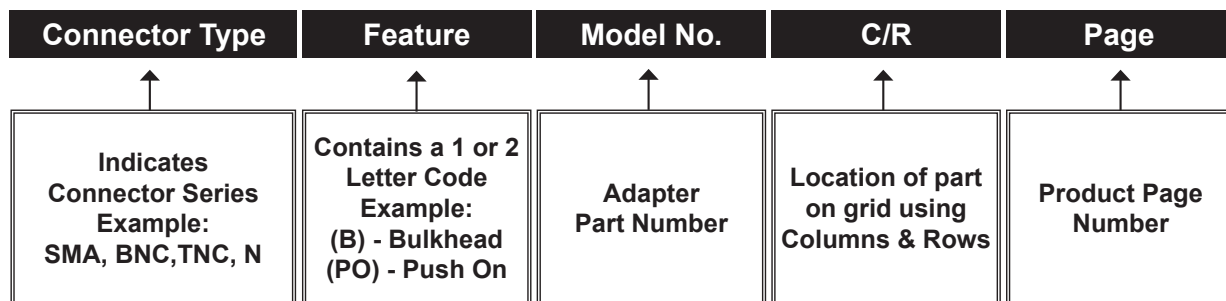

If you know the PE part number you are searching for, please reference our Part Number Index on Page [355](#)

### 2. Quick Reference Guide

(Page number refers to first appearance of product in the Adapter Section)

Connector Series	Page	Connector Series	Page	Connector Series	Page	Connector Series	Page	Connector Series	Page

The Adapter Locator example above includes Between-Series part numbers in two configurations:

**Connector 1 to Connector 2 as well as Connector 2 to Connector 1 can be found in the same location.**

Products can only be found under the first instance of the series combination. As an example, PE9079 above will be found in only one location in the Adapter Section.

# Amplifiers Selection Guide

## 3 Easy Ways to Find your Product.....

### 1. Search by PE Part Number

If you know the PE part number you are searching for, please reference our Part Number Index on Page [355](#).

### 2. Quick Reference Guide

Bi Directional Amplifiers.....	<a href="#">48</a>
Broadband Amplifiers.....	<a href="#">48</a>
USB Controlled.....	<a href="#">49</a>
Bench Top.....	<a href="#">50</a>
DC Coupled Amplifiers.....	<a href="#">50</a>
Gain Block Amplifiers.....	<a href="#">50</a>
Limiting Amplifiers.....	<a href="#">50</a>
Log Amplifiers.....	<a href="#">51</a>
Low Noise Amplifiers.....	<a href="#">51</a>
Standard.....	<a href="#">51</a>
Input Protected.....	<a href="#">52</a>
Power Amplifiers.....	<a href="#">53</a>
Power Amplifiers (<4W).....	<a href="#">53</a>
High Power Amplifiers (>4W).....	<a href="#">54</a>
GaN High Power Amplifiers.....	<a href="#">55</a>
Variable Amplifiers.....	<a href="#">56</a>
Amplifier Accessories.....	<a href="#">56</a>

# Attenuators and Equalizers Selection Guide

## 3 Easy Ways to Find your Product.....

### 1. Search by PE Part Number

If you know the PE part number you are searching for, please reference our Part Number Index on Page [355](#).

### 2. Quick Reference Guide

Attenuators.....	<a href="#">66</a>
CMOS, Relay, TTL and USB Controlled Attenuators.....	<a href="#">81</a>
Continuously Variable Attenuators	
50 Ohm.....	<a href="#">81</a>
DC Bias Attenuators	
50 Ohm.....	<a href="#">81</a>
75 Ohm.....	<a href="#">81</a>
Fixed Attenuators	
50 Ohm.....	<a href="#">66</a>
75 Ohm.....	<a href="#">78</a>
Step Attenuators, Push Button	
50 Ohm.....	<a href="#">79</a>
75 Ohm.....	<a href="#">80</a>
Step Attenuators, Rotary	
50 Ohm.....	<a href="#">80</a>
75 Ohm.....	<a href="#">80</a>
Step Attenuators, Toggle	
75 Ohm.....	<a href="#">80</a>
Voltage Variable Attenuators.....	<a href="#">82</a>
Equalizers.....	<a href="#">82</a>

# The Cable Creator™

Configure and Customize Your  
Cable Assemblies Online

**Over 250,000 Custom Cable Configurations Available to Ship Same Day!**

- Choose from over 2,030 RF coax connectors
- 123 coaxial cable types, including Twinax
- Choose your desired length (metric or standard)
- Includes high-reliability and low PIM assembly types
- ISO 9001:2015 certified production facility
- Optional Customizations:
  - Lead-free solder
  - Heat shrink
  - Labeling
  - Test plots
  - Clocking of right angle connectors

# Our Latest Cable Assembly Additions

Available in Standard and Custom Lengths! In-Stock and Shipped Same Day

## High-Reliability Cable Assemblies

- MIL-DTL-17 and Temperature Conditioned, Low Loss Options
- Maximum Frequency Levels as High as 18 GHz
- J-STD Soldering Processes
- IPC/WHMA-A-620 Workmanship
- Lot Traceability for Cables, Connectors, Heat Shrink and Solder
- Detailed Test Reports and Plots

## Low PIM Cable Assemblies

- Maximum PIM Levels as Low as -160dBc
- 100% PIM Tested with Results Marked on the Cable
- Low Loss, Excellent VSWR
- Lightweight, Extremely Flexible
- UL-Rated, Fire-Rated, Outdoor-Rated Cable Types
- Available with 4.3-10, 7/16 DIN, 4.1/9.5 Mini-DIN, Type-N, NEX10, SMA, and QMA Connector Series

## 40 GHz and 67 GHz Skew Matched Cable Pairs

- 1 ps Delay Match
- Excellent VSWR of 1.4:1
- 100% Tested Up to 40 or 67 GHz
- Extremely Flexible
- Polarity Indicators on Cable Ends

## Handheld RF Analyzer Rugged Phase Stable Cable Assemblies

- VSWR as Low as 1.2:1
- Phase Stability with Flexure as Low as  $\pm 1.5$  Degrees
- Amplitude Stability with Flexure as Low as  $\pm 0.1$  dB
- Rugged Armor with 1200 PSI Crush Resistance, Protects Cable During Field Measurements
- UV Resistant Jacket
- Test Data Included with Each Serialized Cable

## PE-P160LL Low Loss Cable Assemblies

- Triple-Shielded Low Loss Cable
- Maximum Frequency Levels as High as 18 GHz
- Shielding Effectivity >90 dB
- FEP Jacket
- 83% Phase Velocity
- Available with Type-N, SMA, and TNC Connector Series with Bulkhead and Right Angle Options

# Coaxial Cable Assemblies Selection Guide

Do you need a cable assembly that isn't in our RF Product Guide?  
Visit our website to view our entire selection of available assemblies or  
to build your own custom length cable assembly!

## 3 Easy Ways to Find your Product.....

### 1. Search by PE Part Number

If you know the PE part number you are searching for, please reference our Part Number Index on Page [355](#)

### 2. Quick Reference Guide

(Page number refers to first appearance of product in the Cable Assemblies Section)

Cable Connector	Page	Cable Connector	Page	Cable Connector	Page	Cable Connector	Page	Cable Connector	Page

SMA FEMALE BULKHEAD.....	43
SMA MALE.....	17,23,31,32
SMA MALE RIGHT ANGLE.....	17,23,40,41
UMCX PLUG.....	76

MCX PLUG RIGHT ANGLE TO:	EXAMPLE
MCX PLUG.....	78
MCX PLUG RIGHT ANGLE.....	79
N FEMALE BULKHEAD.....	25
SMA FEMALE BULKHEAD.....	<a href="#">23</a>
TNC FEMALE BULKHEAD.....	27
UMCX PLUG.....	76

The Cable Assembly Locator example above includes Between-Series Cable Assembly part numbers in two configurations: **Connector 1 to Connector 2 as well as Connector 2 to Connector 1 will be found in the same location.**

Products can only be found under the first instance of the series combination. As an example, PE39421-12 above will be found in only one location in the Cable Assembly Section.

All Pasternack coaxial cable assembly part number indicate the length of the assembly (in inches) following the hyphen. Example: PE300-24 and PE300-26.5 are 24 inches and 26.5 inches in length respectively

**NOTE: All cable assemblies have a length tolerance of 1.5% or ± 3/8", whichever is greater.**

## HIGH-RELIABILITY RF CABLE ASSEMBLIES

### Product Features

- Max. Frequency as High as 18 GHz
- Double and Triple Shielded Versions
- Lot Traceability
- J-STD-Soldering
- High-Reliability Cable and Connectors
- RF Test Plots
- Detailed Test Report
- In-Stock and Shipped Same Day

### Applications

- Hi-Rel
- MIL-DTL-17 Requirements
- Avionics
- IFF
- SATCOM
- ECM

MIL-DTL-17 Cable Assembly Series

Temperature Conditioned, Low Loss Cable Assembly Series

Pasternack's MIL-DTL-17 Cable Assemblies and Temperature-Conditioned, Low-Loss Cable Assemblies are part of a full line of high-reliability RF components that are in-stock and available for shipment same day. These Commercial-Off-The-Shelf (COTS) assemblies offer a combination of superior materials, processes, and acceptance testing designed to ensure rugged, highly reliable performance for your mission critical applications.

Each assembly is manufactured using J-STD soldering processes and WHMA-A-620 workmanship and is also traceable to its component lots for every material used (RF connectors, coax cable, heat shrink, and solder). There is 100% test sampling of assemblies for connector gaging, insertion loss, VSWR, DWV, workmanship, configuration, and marking, with sampled (AQL) inspections performed for length and mass. A detailed test report accompanies each assembled lot.

Whether the need is to provide a high-reliability MIL-SPEC connection or a rugged, dependable cable assembly, Pasternack has the right assembly for the job. Visit us online at [www.pasternack.com](http://www.pasternack.com) to configure and customize your order, or sign up for our mailing list to receive the latest news and product information.

### MIL-DTL-17 BNC CABLE ASSEMBLY SERIES

**LOW PIM CABLE ASSEMBLIES**

**Product Features**

- 100% PIM Tested, Results Marked on Cable
- Max Frequency 6 GHz
- Low PIM: < -160 dBc Max
- 76% Phase Velocity
- FEP Jacket
- UL910 Plenum-Rated Cable
- Lightweight and Extremely Flexible
- Low Loss with Excellent VSWR

- IP67 (when mated)
- Shielding Effectivity > 100 dB
- Connector Options: 4.3-10, SMA, QMA, 7/16 DIN, 4.1/9.5, Type-N

**Applications**

- Low PIM Applications
- Distributed Antenna Systems (DAS)
- Plenum Installations
- Multi-Carrier Communication Systems
- PIM Testing

Low PIM Cable Assemblies

Pasternack's Low PIM Cable Assemblies offer a wide range of connector options: 4.3-10, SMA, QMA, 7/16 DIN, 4.1/9.5, and Type-N. These assemblies deliver low PIM performance to support Distributed Antenna Systems (DAS) and other complex, multi-carrier cable installations. All low PIM assemblies are 100% PIM tested with test results marked on the cable.

Whether the need is to provide a low PIM jumper connection, low PIM test cable, or simply create a custom assembly, Pasternack has the right cable for the job. Low PIM assemblies are part of Pasternack's full line of RF components that are available for same-day shipping. We are continually adding new cables and connectors to the low PIM family. So please visit us online at [www.pasternack.com](http://www.pasternack.com) to see the newest additions, or sign up for our mailing list to receive the latest news and product information.

For our complete selection of cable assemblies, please visit our website

# INDEX GUIDE TO COAXIAL CABLES

## COAXIAL CABLES.....193

### 75 OHM BROADCAST.....194

Pasternack's selection of 75 Ohm Broadcast coaxial cable includes RG59-P plenum cable, commercial grade RG6-CATV, HD mini 59 cable in multiple colors as well as PTFE jacketed RG187A/U.

### RG MIL-C-17 TYPE CABLE.....196

Pasternack offers 31 different MIL-C-17 compliant coaxial cable types. These cables are available in various diameters, jacket materials, impedances, and velocity factors, providing numerous RF cable options to fit your specific requirements.

### COMMUNICATIONS.....194

Our selection of Low Loss cable is designed with high Velocity Factor (VF) dielectric materials and two outer shields for communications applications requiring Low Loss and High Isolation. These cables are offered in several popular sizes including 0.195", 0.240", 0.400", and 0.600" diameters.

### SEMIRIGID AND FORMABLE.....197

Pasternack's Precision Cables are designed for RF and Microwave applications with frequencies up to 65 GHz. These cables are constructed of copper jacketed and tinned aluminum semirigid designs; and tinned braid conformable cable in both FEP jacketed and unjacketed designs. The semi rigid and conformable cables are available from 0.020 to 0.250 inches in diameter.

### HIGH PERFORMANCE.....195

Pasternack's line of High Performance Flexible Cable has high Velocity Factors of 70 to 85% and incorporate Spiral Wrapped outer conductors for superior shielding under flexure. These cables are used as flexible cable alternatives to semirigid cable and in many cases use the same connectors.

### TWINAX.....198

Pasternack offers two versions of Twinax cable with an impedance of 100 or 78 ohms. Twinax cable has two center conductors surrounded by a dielectric. The dielectric is surrounded by a braided outer conductor covered by a PVC jacket material. This construction creates a shielded, twisted pair with superior performance when compared to unshielded, twisted pair cable.

# COAXIAL CABLES

Meets or Exceeds MIL-C-17 Specifications Where Applicable

**NOTES:**

- (1) P = PLENUM CABLE, NEC 725-2(b) CLASS 2 - REQUIRES SPECIAL CONNECTORS
- (2) SEMI-RIGID CABLE, SOLD IN 5 FEET, STRAIGHT PIECES ONLY
- (3) SEMI-RIGID CABLE, SOLD IN EITHER 5 FEET, STRAIGHT PIECES OR COILS OF 50 FEET
- (4) RE-SHAPEABLE VERSION OF RG402/U
- (5) RE-SHAPEABLE VERSION OF RG405/U
- (6) TINNED ALUMINUM VERSION OF PE-047SR
- (7) TINNED ALUMINUM VERSION OF RG401/U
- (8) BARE COPPER JACKET
- (9) TINNED ALUMINUM VERSION OF RG405/U
- (10) TINNED ALUMINUM VERSION OF RG402/U
- (11) RE-SHAPEABLE VERSION OF RG401/U
- (12) RE-SHAPEABLE VERSION OF PE-047SR
- (13) JACKETED RE-SHAPEABLE VERSION OF RG402/U
- (14) JACKETED RE-SHAPEABLE VERSION OF RG405/U

**MATERIALS:**

- Al (Tn) TIN PLATED ALUMINUM
- Cu BARE COPPER
- Cu (Tn) TIN PLATED COPPER
- FEP FLUORINATED ETHYLENE PROPYLENE
- LSZH LOW SMOKE ZERO HALOGEN
- PE POLYETHYLENE
- PTFE POLYTETRAFLUOROETHYLENE
- PTFE (FR) FIBERGLASS REINFORCED PTFE
- PVC POLYVINYLCHLORIDE
- PVC (NC) NON-CONTAMINATED PVC
- PVC (FR) FIBERGLASS REINFORCED PVC

# Connector Selection Guide

## 3 Easy Ways to Find your Product.....

### 1. Search by PE Part Number

If you know the PE part number you are searching for, please reference our Part Number Index on Page [355](#)

### 2. Quick Reference Guide

(Page number refers to first appearance of product in the Connector Section)

Connector Series	Page	Connector Series	Page	Connector Series	Page	Connector Series	Page
1.0/2.3	<a href="#">205</a>	75 Ohm N	<a href="#">262</a>	FME	<a href="#">221</a>	Rev. Pol. N	<a href="#">232</a>

## RF DIPLEXERS

75 Ohm Diplexer F Female with 5 MHz to 390 MHz Low Pass and 650 MHz to 1,000 MHz High Pass [PE8DP1001](#)

- 5 - 1000 MHz
- 75 Ohms Impedance
- Typical Return loss 18 dB
- Bidirectional design
- EN 50083-2 Class A Standard

In-stock and available to ship today!

Technical Support  
+1 (949) 261-1920

Same-Day Shipping,  
Even Custom  
Cable Assemblies

## FILTERS

**NEW**

Low Pass Harmonic Filters: [PEHFL0000](#) - [PEHFL0001](#)

- Passband frequency: DC - 6000Hz
- 50 Ohms impedance
- Broadband design: C, L & S Band
- RF input power passband: 50 W
- VSWR: 1.5:1

**In-stock and available to ship today!**

### SMT Packaged Electromechanical Switches

**Features:**  
 A: Absorptive  
 AR: Auto Reset  
 F: Failsafe  
 D: Diode  
 GR: Global Reset  
 H: Hot Switches  
 I: Indicators  
 L: Latching  
 NO: Normally Open  
 NT: Non-Terminated  
 P: Pulse  
 Latching  
 R: Reflective  
 RS: Reset  
 S: Self Cut Off  
 T: Terminated  
 TTL: TTL Logic

## INDEX GUIDE TO TERMINATIONS AND MATCHING PADS

Terminations & Matching Pads

### TERMINATIONS AND MATCHING PADS.....307

#### MATCHING PADS.....311

Matching pads designed to mate with 50 ohm connectors on one end and 75 ohm connectors on the opposite end are available in a range of connector options.

Resistive Impedance Transformers.....311

#### TERMINATIONS.....307

RF Coaxial Terminations are available in a number of connector options and frequency ranges. Power ratings for these terminations range from 1/2 watt to 500 watts of continuous power. 50 ohm and 75 ohm options are available as well.

RF Load.....307 Feed-Thru Load.....310

## COAXIAL RF PROBES & PROBE POSITIONING HARDWARE

### Product Features

PCB RF Probe Positioner (PE5TL1000): \$1,202.93

- RF PCB probe positioner holds coaxial probes
- Magnetic mounting plate
- On-Off positioner switch
- Articulated joints
- Multi-axis positioner control

Coaxial RF Microwave GS and GSG Probe Series (PE2PB1000-PE2PB1003):

- Max. Operating Frequency of 20 GHz
- RF probe Return Loss better than 10 dB
- GS and GSG Probes Feature Gold Plated Contacts
- Compliant coaxial GSG (or GS) pogo pins

## HANDHELD RF ANALYZER RUGGED PHASE STABLE CABLE ASSEMBLIES

### Product Features

- Designed for in-field measurements with handheld or portable analyzers
- Excellent VSWR as low as 1.2:1
- Excellent Phase Stability with Flexure as low as 1.5 degrees
- Rugged Armor provides 1200 p.s.i crush resistance plus torque resistance
- UV resistance jacket
- Each assembly is serialized and includes test data

Test & Measurement

## RUGGEDIZED VNA TEST CABLE ASSEMBLIES

See Our Website For Current Pricing & Real-Time Stock Availability!

### Product Features

- Rugged VNA test port extenders
- Torsion resistant connector heads
- Max phase variation +/- 2° with flexure to 18 GHz
- Max phase variation +/- 3° with flexure to 26.5 GHz
- Max phase variation +/- 5° with flexure to 40 GHz
- 5,000 mating cycles minimum
- 75,000 flexure cycles minimum
- Each cable is serialized and comes with RF test data
- SMA, Type-N, 2.92mm and 2.4mm configurations available

Pasternack's ruggedized VNA test cables are designed to provide customers with repeatable accurate VNA measurements. These test cables have excellent electrical properties including low insertion loss, low VSWR and phase stability of +/- 2° to 18 GHz with flexure. Torsion resistant connector heads are directly attached to stainless steel conduit style armoring providing a rugged design for up to 5,000 mating cycles with proper care. The cable armoring enhances amplitude and phase stability by preventing stress due to over bending while maintaining the flexibility required for testing in a lab environment. When used with the appropriate calibration kit these test cables effectively extend the test port of the VNA allowing for accurate measurements of devices that cannot be directly connected to a Network Analyzer test port.

## 50 AND 67 GHZ TEST CABLE ASSEMBLIES

### Product Features

- Highly flexible VNA test cables up to 50 and 67 GHz
- Max phase variation +/- 6° to 50 GHz and +/- 8° to 67 GHz with flexure
- VSWR of 1.3:1 to 50 GHz and 1.4:1 to 67 GHz
- Rated up to 5,000 mating cycles
- Up to 100,000 flex cycles
- Swept right angle connector options available
- Highly flexible stainless steel braided armoring
- Designed for accurate and repeatable measurements

## PE-TC195 SERIES PHASE STABLE TEST CABLE ASSEMBLIES

### Product Features

- Phase and amplitude stability with flexure
- Small diameter, lighter weight and lower profile for high density test applications
- Phase change with flexure +/-2° to 18 GHz
- Excellent for multi-port test equipment
- Very flexible and durable cable with a min. bend radius of 1 inch
- Excellent VSWR and insertion loss
- Extra strain relief for extended connector body with booting to enhance stability and longevity
- Each serialized assembly comes with matching test data
- 5,000 mating cycles when properly mated
- In-Stock and ready to ship

See Our Website For Current Pricing & Real-Time Stock Availability!

# INDEX GUIDE TO WAVEGUIDE PRODUCTS

## WAVEGUIDE ANTENNAS.....324

**WAVEGUIDE ANTENNAS.....324** | **WG ANTENNA ACCESSORIES.....329**

Pasternack offers a large selection of waveguide antennas from WR-284 to WR-15 (2.6 GHz to 75 GHz) in a variety of flanges and gain. Both UG and CPR/CMR style flanges are available. Most of the gain horn antennas can be purchased already assembled with a waveguide to coax adapter.

## WAVEGUIDE BENDS.....332

Pasternack offers a selection of E and H plane waveguide bends of various flanges and interfaces, covering the frequency range from 5.85 GHz to 18 GHz with VSWR as low as 1.08:1.

## WAVEGUIDE FILTERS.....332

**BANDPASS.....332**

Pasternack offers a selection of high performance waveguide bandpass filters, covering the frequency range from 20.2 GHz to 40 GHz with WR-28 and WR-42 interfaces. These filters exhibit excellent out-of-band rejection making them ideally suited to receiver front-end or transmitter applications.

## WAVEGUIDE BULKHEAD ADAPTERS.....333

The Pasternack series of rectangular waveguide bulkhead flange mount adapters are mounted to the panel of equipment with screws. Once mounted, waveguides flanges can be attached to the adapter on both sides of the bulkhead adapter to allow a signal path through the panel.

## WAVEGUIDE CONVERTERS.....333

**MIXER DOWN CONVERTERS.....333** | **MIXER UP CONVERTERS.....334**

Pasternack offers a series of Millimeter Wave Up and Down Converter Mixers that cover popular Ka, Q, U, V, E, and W Bands up to 110 GHz with an IF frequency of DC to 18 GHz. L and R ports support popular waveguide sizes from WR-28 to WR-10, and the IF port utilize Female SMA connectors.

## WAVEGUIDE COUPLERS.....334

**ASSEMBLIES.....339** | **BROADWALL.....334** | **CROSSGUIDE.....335**

Pasternack offers a brand new family of instrumentation grade directional waveguide couplers boasting accurate performance up to 110 GHz in seven popular frequency bands including K, Ka, Q, U, V, E and W bands. These waveguide couplers boast high directivity of 30 dB typical and insertion loss is as low as 0.6 dB in some models.

## WAVEGUIDE DETECTORS.....339

Waveguide detectors consists of 6 unique models covering a broad frequency range of 26.5 GHz to 110 GHz. The input ports use popular waveguide sizes ranging from WR-28 to WR-10, while the video output ports utilize SMA female connectors. The detector circuits use high performance GaAs Schottky Barrier Beam lead diodes with extremely low junction capacitance.

## WAVEGUIDE DIRECT READ ATTENUATORS.....340

These continuously variable attenuators have "direct read" capability which allows the user to dial-in the amount of attenuation needed to within 2% accuracy over most of the attenuation range. The attenuation level is stable, highly repeatable and accurate across the full frequency and attenuation range. These attenuators are ideal for precision measurements in demanding applications like instrumentation and system calibration.

## WAVEGUIDE ELECTROMECHANICAL RELAY SWITCHES.....340

Pasternack offers a series of 28 waveguide electromechanical relay switch models that offer full waveguide performance covering C, X, Ku, K and Ka frequency bands from 5.85 GHz to 40 GHz. These switches re configured for single-pole double-throw (SPDT) operation with latching self-cut-off actuators, TTL logic and position indicators with manual override.

**FLEXIBLE WAVEGUIDES.....341**

**SEAMLESS.....341**

**TWISTABLE.....342**

This family of flexible, seamless waveguides or flexible, twistable waveguides that can be bent in both the E and H planes without impairing VSWR or attenuation. These waveguides are covered by a neoprene jacket which protect the waveguide and provides mechanical support.

**WAVEGUIDE ISOLATORS.....342**

Pasternack Enterprises offers a wide variety of waveguide isolators from WR-10 to WR-112. These are two-port devices that transmit microwave or radio frequency power in one direction only and block the signal in the opposite direction.

**WAVEGUIDE LOW NOISE AMPLIFIERS.....343**

Pasternack Waveguide Low Noise Amplifiers are ruggedly built 50 ohm designs and unconditionally stable with impressive performance across broadband waveguide frequency bands

**WAVEGUIDE MAGIC TEES.....343**

Pasternack's magic, or hybrid tees are 4 port device that is internally tuned to optimize matching, balance, and isolation. A signal applied to the H port will be equally divided between the two collinear ports. A signal applied to the E port will be divided between the two collinear ports but with a 180 degree phase difference. Similarly, when two in-phase signals of equal amplitude are applied to the collinear ports, these will be added together at the H-plane (sum) port and subtracted from one another at the E-plane (difference) port.

**WAVEGUIDE ORTHOMODE TRANSDUCERS.....343**

These Orthomode Transducers are used for separating signals into two linear orthogonal signals. The OMT supports circular, elliptical and linear polarized waves. Pasternack's OMT line support from 8.2 to 90 GHz with 30-35 dB of isolation between ports.

**WAVEGUIDE PHASE SHIFTERS.....343 WAVEGUIDE TERMINATIONS.....346**

These waveguide variable phase shifters are built using low loss dielectric material, which offers minimum insertion loss..

Pasternack has a large family of high performance loads from WR-112 to WR-10. These standard terminations can dissipate up to 300 Watts of power depending on the specific band.

**WAVEGUIDE PIN DIODE SWITCHES.....344 WAVEGUIDE TRANSITIONS.....347**

Waveguide PIN Diode Switches consist of 4 models that cover 60 GHz to 110 GHz, in both SPST and SPDT configurations.

Pasternack's family of Waveguide Transitions/Adapters are used as a means of propagating RF/Microwave energy from one waveguide size to another.

**WAVEGUIDE POLARIZERS.....344 WAVEGUIDE TWISTS.....348**

Pasternack's Waveguide Polarizers transform polarized signals from circular to linear and vice versa. They can operate as either right hand or left hand polarization. Waveguide Polarizers currently cover Ku, Ka, and V bands.

Pasternack offers waveguide twists in 45 degree left and right hand waveguide versions as well at 90 degree. These twists are designed and constructed to prevent unwanted distortion to the signal's transmission.

**WAVEGUIDE POWER AMPLIFIERS.....344 WAVEGUIDE VARIABLE ATTEN.....348**

Waveguide Power Amplifiers consist of 2 models that cover 70.5 GHz to 86.5 GHz (E Band) and support WR-12 waveguide ports. Performance includes small signal gain that ranges from 20 to 22 dB.

The Continuously Variable attenuators are equipped with a micrometer, which enables rapid re-setting. With calibrated charts, attenuators can be used as direct reading attenuator for bench top test set use.

**WAVEGUIDE SECTIONS.....345 WAVEGUIDE ACCESSORIES.....348**

Pasternack offers a standard product line of waveguide straight section of various length and flanges, covering the frequency range from 5.85 GHz to 12.4 GHz with VSWR as low as 1.03:1.

Pasternack Enterprises offers a variety of waveguide accessories from WR-10 to WR-430.

# PASTERNAK ENTERPRISES -- REACH PRODUCT COMPLIANCE PROGRAM

## OUR COMMITMENT

At Infinite Electronics, we maintain a comprehensive REACH compliance program to help customers with their green aspirations. We strive to have accurate and available material content data on all of our products. When data is not yet available, customer requests will be given top priority.

## WHAT IS REACH?

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18 December 2006 is commonly referred to as REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals). The REACH regulation became effective on June 1, 2007 with the objective to improve protection of human health and the environment from exposure to chemicals. Under REACH, there is an obligation to ensure that articles do not contain any of the substances on the REACH Substances of Very High Concern (SVHCs) Candidate list in concentrations greater than 0.1% by weight. SVHCs are substances that may cause cancer or other serious health or environmental effects and thus face potential restriction or outright bans. The SVHC list is updated with additional substances at approximately every six months, thus product declarations must indicate the applicable SVHC release date.

## OUR APPROACH

Infinite Electronics has partnered with Assent Compliance, a world class provider of compliance software and professional support staff, to obtain current material content data on our vast selection of electronic products. Together, we work with our supply chain to routinely collect and analyze this data which enables us to determine the state of compliance for each item we sell. As part of our process integration efforts, we are currently redesigning the way this data can be found on-line so that it is consistent across all brands. Once deployed, we will have a customer self-serve search engine tool to enable real-time creation of part number specific declarations. Until then, customers may request declarations directly from our Assent Compliance partners at [InfiniteElectronicsRequests@assentcompliance.com](mailto:InfiniteElectronicsRequests@assentcompliance.com). Please ensure you that you list all Infinite Electronics part numbers within your request.

# PASTERNAK ENTERPRISES ROHS COMPLIANCE PROGRAM

Lead-free solder is now available for all cable assemblies upon request or online at [www.Pasternack.com](http://www.Pasternack.com).

## OUR COMMITMENT

At Infinite Electronics, we maintain a comprehensive RoHS compliance program to help customers with their green aspirations. We strive to have accurate and available material content data on all of our products. When data is not yet available, customer requests will be given top priority.

## WHAT IS ROHS?

Short for Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment, RoHS was adopted in February 2003 by the European Union. Now in its third iteration as (EU) Directive 2015/863, RoHS guidelines and legislation are intended to reduce the presence of ten (10) materials deemed hazardous to the environment. To comply, products entering the EU must not have a homogeneous presence of these materials above the following levels by percentage of their weight:

- Lead (Pb) < 0.1%
- Mercury (Hg) < 0.1%
- Cadmium (Cd) < 0.01%
- DEHP < 0.1%
- DBP < 0.1%
- Hexavalent Chromium (CrVI) < 0.1%
- Polybrominated Biphenyls (PBB) < 0.1%
- Polybrominated Diphenyl Esters (PBDE) < 0.1%
- BBP < 0.1%
- DIBP < 0.1%

## OUR APPROACH

Infinite Electronics has partnered with Assent Compliance, a world class provider of compliance software and professional support staff, to obtain current material content data on our vast selection of electronic products. Together, we work with our supply chain to routinely collect and analyze this data which enables us to determine the state of compliance for each item we sell. # MAILING LIST CHANGES

If you receive more than one RF Product Guide with the same name and address, please notify Pasternack and pass the RF Product Guide along to a friend. Also, if you do not require multiple copies to the same company address, contact a sales representative to verify and modify your mailing information. A forms-based communications method to add, delete or modify mailing information is available at [www.pasternack.com](http://www.pasternack.com). By clicking "Contact Us", and then clicking "Remove Name from Mailing List", you may complete the form to request a change to your mailing preferences. In addition, by clicking "RF Product Guide", and then clicking "Request a Printed RF Product Guide", you may add your contact information to our mailing list. Please note service opt-in and opt-out options located on the forms. Alternatively, you may mail, email, telephone or fax Pasternack your request.

## PLACING YOUR ORDER

### ► BY TELEPHONE: 866-PASTERNAK (866-727-8376) US & CANADA, OR 949-261-1920

Our friendly sales representatives are ready to serve you from 5:00am to 5:30pm Pacific Standard Time (PST), Monday through Friday. For the most efficient service, please have ready a list of quantities and part numbers and, if paying by credit card, your MasterCard, VISA, American Express or Discover card. Note: Calls may be recorded or monitored for quality and training purposes.

### ► BY FAX: 949-261-7451

Our fax lines can be accessed 7 days a week, 24 hours a day. Orders received after 4:00pm PST will be promptly processed and shipped the next business day. Please include your daytime phone number and/or email address in case we have any questions about your order.

### ► BY INTERNET: [WWW.PASTERNAK.COM](http://WWW.PASTERNAK.COM) OR EMAIL: [SALES@PASTERNAK.COM](mailto:SALES@PASTERNAK.COM)

Order online 7 days a week, 24 hours a day using our online ordering system. Just search for the items you want and add them to your shopping cart. Internet orders entered after 4:00 pm PST will be promptly processed and shipped the next business day.

### ► BY MAIL: SIMPLY MAIL YOUR ORDER TO: PASTERNAK ENTERPRISES.

17802 FITCH  
PO BOX 16759  
IRVINE, CA 92623-6759 USA

International customers, please see "International Orders" below for additional information.

### TERMS AND CONDITIONS OF SALE:

The following from Pasternack's Binding Terms and Conditions of Sale are provided for your convenience. A complete documentation of the Binding Terms and Conditions of Sale may be found in the back of the RF Product Guide, or on Pasternack's website at <https://www.pasternack.com/t-terms-of-sale.aspx>. Any questions or clarifications may be answered by contacting Customer Service at (+1) 949-261-1920 or by any of the methods listed above.

### NO MINIMUM ORDER REQUIREMENT

### GROUND FREIGHT:

Shipping or freight charges and insurance will be paid by the customer. All sales are made FCA-Shipping Point (as defined by the INCOTERMS 2000) in Irvine, CA USA & Lewisville, TX USA. Shipping or freight charges from Pasternack's Irvine, CA factory are prepaid and added to the invoice or billed collect.

### SAME-DAY SHIPMENT:

Same-day shipment will apply to orders received Monday through Friday, prior to 4:00pm PST.

- All UPS air and surface options
- All FedEx air options (with an approved account number)
- Most other shipping options, including DHL (with an approved account number) and USPS

### COUNTER-TO-COUNTER SHIPPING:

For your urgent order requiring our fastest shipping method, we will place your order on the next available flight from Santa Ana-Orange County John Wayne International Airport (Airport code: SNA) and Dallas/Fort Worth International Airport (Airport Code: DFW) to the destination you specify. Please call for details.

### PAYMENT TERMS:

Pasternack offers a number of convenient payment methods:

For **United States customers**, we offer check, money order, MasterCard, VISA, American Express, and Discover, as well as open account credit to qualified institutions and businesses. Payment must be made in US Dollars.

For **Canadian customers**, we offer all of the above payment options.

For **International customers**, see International Orders.

### OPEN ACCOUNT CREDIT:

Net 30 Days terms are available to businesses, schools and agencies subject to credit approval. Approval can begin by submitting a completed Credit Application, which can be found online at: [www.Pasternack.com/t-CreditApplication.aspx](http://www.Pasternack.com/t-CreditApplication.aspx)

### EFT/WIRE TRANSFERS:

Please contact us for details. We will inform you of the total amount which will include shipping charges and any applicable wire transfer fees. Orders will not be accepted until funds have been received in full.

**WELLS FARGO BANK**  
420 MONTGOMERY ST.  
SAN FRANCISCO, CA 94104 USA  
ACCOUNT NUMBER: 4270 0000 0000 0000 1  
ROUTING NUMBER: 121000248  
SWIFT NUMBER: WFBUS6S

### INTERNATIONAL ORDERS:

In addition to the United States and its territories, Pasternack accepts international orders. All orders of international origin are exported from the US in accordance with the Export Administration Regulations. Diversion contrary to US Law is prohibited. Please see Pasternack's Binding Terms and Conditions of Sale for full details.

Pasternack has international distributors for the following countries:

**Africa:** Namibia, South Africa

**Asia-Pacific:** Australia, China PRC, India, Indonesia, Japan, Malaysia, New Zealand, Singapore, South Korea, Thailand

**Europe:** Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Ireland, Italy, Kazakhstan, Luxembourg, Netherlands, Norway, Poland, Portugal, Russia, Slovakia, Spain, Sweden, Switzerland, Turkey, United Kingdom

**Middle East:** Israel

**South America:** Brazil

To access their complete contact information, please see our International Distributors section in this RF Product Guide. (inside back cover)

### INTERNATIONAL SHIPPING CHARGES:

Shipping or freight charges and insurance will be paid by the customer. All sales are made FCA-Shipping Point (as defined by the INCOTERMS 2000) in Irvine, CA USA. We ship orders by UPS, FedEx (with an approved account number), or DHL (with approved account number) with delivery in 2 to 3 days to most locations worldwide.

### INTERNATIONAL TAXES AND DUTIES:

Customer is responsible for duties and taxes.

## BINDING TERMS AND CONDITIONS OF SALE

### 1. SCOPE; CHANGES

The terms and conditions stated herein (this "Agreement") govern all sales of products or services ("products") by Infinite Electronics, Inc. (collectively, "we," "us," "our," or "seller") to you or the entity you represent ("you" or "buyer"). You represent to us that you are lawfully able to enter into contracts (e.g., you are not a minor) and that if you are entering into this Agreement for an entity, such as the company you work for, you represent to us that you have the legal authority to bind that entity. Unless otherwise agreed to in writing by seller's authorized agent, any terms and conditions contained in buyer's purchase order or any other document that are different from or in addition to these terms and conditions are objected to, are rejected, and will not be binding on us. By placing an order for products from us, or by accepting delivery of the products described on the applicable packing slip, bill of lading and/or invoice received with the products, you agree to be bound by and accept these terms and conditions of sale.

We may change the terms and conditions of this Agreement in our sole discretion by posting an updated version of these terms and conditions at this location; provided, however, that the terms and condition of this Agreement in effect as of the date of an applicable order shall continue to govern such order and the products purchased thereunder.

### 2. ORDER ACCEPTANCE

a) Your receipt of an email or other form of order confirmation does not constitute our acceptance of your order or a confirmation of an offer to sell.

b) We reserve the right, without prior notification, to limit the order quantity on any item and/or refuse service to anyone.

c) All orders are subject to review and acceptance by us. You agree to provide complete and accurate contact information in connection with any order submitted to us. Verification of information may be required prior to the acceptance of any order.

d) In the case of pre-stocked finished goods, order acceptance is designated by fulfilling the order. In the case of products requiring post-order processing (including but not limited to design, material purchase, manufacturing or test), order acceptance is designated by performing activities unique to the order.

### 3. ORDER CANCELLATION

a) Orders fully or partially processed by seller may not be cancelled by buyer.

b) Products not previously stocked as finished goods are both Non-Cancelable and Non-Refundable ("NC/NR"). NC/NR products include cable assemblies, special orders, custom orders, orders for non-standard products, products not customarily in stock, scheduled orders requiring special procurements, or orders for products requiring assembly or manufacturing activities prior to shipping (not stored in completed state) as well as purchased services such as special testing or product modifications.

c) In the event of cancellation or other withdrawal of an order for any reason and without limiting any other remedy as a result of such cancellation or other withdrawal, reasonable cancellation or restocking charges, which shall include all expenses then incurred and commitments made by seller, shall be paid by buyer. Buyer's requests to reschedule are subject to acceptance by seller in its sole discretion. Orders may not be rescheduled after the order has been submitted by seller to the shipment carrier.

#### 4. PRICES

a) Orders are billed at the prices (in US Dollars) in effect at the time of shipment.

b) Prices will be as specified within seller's website or as stated in seller's quote / proposal. If no period is specified, quoted prices will be applicable for thirty (30) days.

c) For catalog products, the website contains the most current catalog pricing and is the price reference for such orders. Pricing included in the catalog is for reference only and final pricing is determined by the published website price.

d) For non-catalog products and services, prices cited are based on current costs and are subject to reasonable adjustment on or after the date of acceptance of any purchase order to meet a rise or fall in such costs, as computed on the date of delivery.

e) Prices are subject to change without notice.

f) Prices are exclusive of taxes, impositions and other charges, including: sales, use, excise, value added and similar taxes or charges imposed by any government authority, international shipping charges, forwarding agent's and broker's fees, bank fees, consular fees, document fees and import duties.

#### 5. TERMS OF PAYMENT

a) All payments must be in US Dollars, or will be converted to US Dollars using seller's standard exchange rate at the time of purchase.

b) MasterCard, VISA, Discover, and American Express credit cards, purchase cards and major bank debit cards are accepted. Payment via net thirty (30) days is available to businesses, schools and agencies or as otherwise specified by seller subject to credit approval.

c) For International Orders, MasterCard, VISA, and American Express credit cards are accepted. Payment via open credit account with Net thirty (30) days may be established for companies having three U.S. references accepted to seller. Prepaid Wire Transfer: You can wire the funds to our bank. We will contact you with the total amount, which will include shipping charges and a \$40 wire transfer fee. Orders will not be accepted until funds have been received in full and the Purchase Order (PO) has been received. Notwithstanding anything to the contrary in this Agreement, seller may add or remove payment options in seller's sole discretion.

d) Buyer acknowledges that seller has the right to reassess buyer's creditworthiness from time to time. To the extent such is in accordance with law, in the event there is a decline in buyer's creditworthiness, seller may, upon thirty (30) days written notice, revise the payment terms between the parties. Upon request, buyer shall provide financial data evidencing the buyer's worth in order for seller to determine the creditworthiness of buyer. Such information shall include, but not be limited to, annual reports, balance sheets, and bank records.

e) If buyer is delinquent in its payment obligations, without prejudice to any other remedies available to it by law or in equity, seller may demand immediate payment and at seller's option (i) suspend all further deliveries to be made under the purchase order or any further performance under any other contract with buyer or buyer's affiliates, in which event buyer shall not be released in any respect from its obligations to seller under the purchase order; (ii) recover all costs of collection including but not limited to reasonable attorneys' fees; (iii) repossess the product for which payment has not been made; (iv) charge interest at 1.5% per month on the past due amount, not to exceed the interest percentage allowed by law; and (vii) reassess the credit worthiness of buyer and change any current payment terms. Any discount from seller's rates, if any, shall cease to apply to the delinquent invoice, buyer shall be invoiced for such differences in cost, and shall immediately pay the resulting invoice.

#### 6. TAXES AND DUTIES

a) Any taxes related to the products purchased are the responsibility of buyer (excluding taxes based on seller's net income), unless buyer presents an exemption certificate acceptable to seller and the applicable taxing authorities. If any exemption certificate presented by buyer is held to be invalid, then buyer will pay seller the amount of the tax and any penalties and interest related thereto.

b) If possible, seller will bill taxes as a separate item on the invoice presented to buyer.

c) Sales tax will be charged on product cost and shipping & handling where applicable and required by law. Any sales tax due that is not collected by the seller is the responsibility of the buyer.

d) International orders may be subject to various taxes and duties in the country of destination, all of which are the responsibility of the buyer. This includes sales, use, excise, value added and similar taxes or charges imposed by any government authority, international shipping charges, forwarding agent's and broker's fees, bank fees, consular fees, document fees and import duties.

#### 7. SHIPPING COSTS

Shipping or freight charges and insurance will be paid by the buyer and added to the invoice or billed collect unless specifically stated in the quote or order confirmation based on seller practices or promotions.

#### 8. DELIVERY AND TITLE

a) Unless otherwise agreed to in writing, all products are shipped Incoterms 2010 - FCA Shipping Point. Subject to seller's right of stoppage in transit, delivery of the products to the carrier will constitute delivery to buyer and title and risk of loss will pass to buyer.

b) Seller will make reasonable efforts to initiate shipment and schedule delivery as close as possible to buyer's requested delivery date(s). Buyer acknowledges that delivery dates provided by seller are estimates only and that seller will not be liable for failure to deliver on such dates.

c) Selection of the carrier and delivery route will be made by seller unless specifically designated by buyer.

d) Seller reserves the right to make deliveries in installments. Delay in delivery of one installment will not entitle buyer to cancel any other installment(s). Delivery of any installment of products within thirty (30) days after the date requested will constitute a timely delivery. Delivery of a quantity that varies from the quantity specified shall not relieve buyer of the obligation to accept delivery and pay for the products delivered.

e) Deliveries shall be made during normal business hours Monday through Friday. One attempt to deliver will be made. Should delivery need to be rescheduled, any additional costs incurred for redelivery and/or storage fees will be charged to the buyer. Seller shall use reasonable efforts to make timely delivery but shall be excused from any delays arising out of causes beyond its reasonable control. Any specific delivery dates that may be stated are approximate.

f) If completion of delivery is prevented through no fault of seller, seller may specify a reasonable alternative place of delivery. Buyer agrees that all costs of storage and transport incurred following an initial attempt at delivery are hereby allocated to and imposed upon buyer, and shall be added by seller to the sale price. Delivery may at any time be withheld by seller pending payment of any sum due from the buyer to seller. Seller will return Product via the incoming method unless an alternative method has been indicated on the purchase order or a change authorized by the buyer representative.

g) Deliveries made outside the 48 contiguous States may be subject to modified terms and conditions as stated within the order quote.

#### 9. LIMITED WARRANTY

a) Products manufactured and/or branded by seller are warranted for a period of one year from time of delivery against defects in workmanship or materials or failure to operate as described in product data sheets under normal use. In some cases, the warranty period may exceed one year where a written warranty description specific to a certain product is stated in a contract or posted on a company website, product catalog or user's manual. Accessories and consumable goods such as batteries, chargers and accessory cables are warranted for four months.

b) Products manufactured by seller in accordance with buyer's instructions or specifications provided by seller are warranted for a period of one year from time of delivery against defects in workmanship or materials only under normal use. In some cases, the warranty period may exceed one year where a written warranty description specific to a certain product is stated in a contract or posted on a company website, product catalog or user's manual.

c) Calibration services are warranted for a period of one year from time of completion against defects in workmanship or materials or failure to operate as described in product data sheets under normal use.

d) The warranties set forth in this Section 9 shall not apply to any defect, failure, or damage arising from or in connection with: (i) improper use, or improper or inadequate maintenance and care; (ii) modifications to or repairs of the products performed by any party other than seller; (iii) combination of the products with any other technology, equipment, hardware, software, or other materials; (iv) use of the products in an environment not meeting the operating specifications for the products; (v) failure to properly transport, prepare, and store the products; (vi) acts of God; or (vii) any normal wear and tear or normal environmental degradation.

e) Products solely distributed by seller without alteration carry the warranty of the respective manufacturer only.

f) Seller will at seller's option and in seller's sole discretion, repair, replace or refund any products that are returned under warranty, and Seller's repair, replacement, or refunding of the price paid for a product under warranty shall be seller's sole liability, and buyer's sole remedy, for any breach of the warranties in this Section 9.

g) This warranty applies to the original purchaser only and is not transferable.

h) This warranty does not cover damage incurred during shipment which is the responsibility of the freight shipping company.

i) Buyer will bear the costs of access, de-installation, re-installation and transportation of the products to seller and back to buyer in connection with any warranty claims. Seller will reimburse the costs of transportation to seller and bear the costs of returning the repaired product or sending replacement product to buyer if the product is found to be covered under warranty.

j) Any repair or replacement pursuant to this limited warranty for products manufactured and/or branded by seller shall be warranted against the same defects re-occurring in a period of 12 months from time of delivery of the repaired or replaced product, or until the expiration of the original product warranty, which ever shall be the latter.

k) This limited warranty and remedies are expressly conditioned upon: (i) buyer's payment of the purchase price in full, (ii) buyer giving written notice of the defect, reasonably described, to seller within ten (10) days of the time when buyer discovers or ought to have discovered the defect, (iii) the storage, installation, operation, use, and maintenance of the products in compliance with product instructions, (iv) the existence of proper records of buyer's operation and maintenance of the products during the warranty period, (v) buyer providing seller with a reasonable opportunity to examine the products and the aforementioned records, and (vi) the absence of any unauthorized modification or repair of the products, including without limitation the removal or alternation of any serial numbers or product identifications.

l) THIS WARRANTY IS IN LIEU OF ANY AND ALL OTHER WARRANTIES, WHETHER ORAL, WRITTEN, EXPRESSED, IMPLIED OR STATUTORY. ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT ARE HEREBY DISCLAIMED.

#### 10. RETURNS

a) Buyers wishing to return products must first obtain a Return Material Authorization (RMA) number from a Customer Service representative. Unauthorized returns will not be accepted at point of receipt. The RMA number must be printed on the outside of the package in order for it to be received and processed. Merchandise must be shipped prepaid.

b) Seller will determine in seller's sole discretion the appropriate remedies for returned items based on the product's limited warranty and circumstances of the return including a possible refund of purchase price, credit for future purchase, replacement, repair, return to buyer as-is, scrap with consent, and refund of shipping expenses.

c) Items stocked as finished goods and ordered in error must have a Return Material Authorization (RMA) number issued within 30 days of the original order. These parts are eligible for full credit only if the returned products and packaging are in mint and salable condition. A repackaging/restocking charge not to exceed 25% of the sale price may be charged on any products not returned unopened. Under no circumstances will credit be issued after 30 days from date of invoice or for orders exceeding \$500.00 in total value. All freight charges are the responsibility of buyer.

d) Products not previously stocked as finished goods are not returnable unless found to be defective. These include cable assemblies, special orders, custom orders, orders for non-standard products, products requiring assembly or manufacturing activities prior to shipping (not stored in completed state).

e) Defective items must have a Return Material Authorization (RMA) number marked on the package prior to shipping.

f) After 30 days from invoice all merchandise returns for distributed products not manufactured by seller must be handled directly with that manufacturer in accordance with their warranty.

#### 11. ORDER DISCREPANCIES

Claims for shortages, incorrect materials or invoicing errors must be made by buyer in writing within ten (10) business days after receipt of shipment. Claims for nonreceipt of shipment must be made in writing within ten (10) business days after receipt of invoice. No products shall be returned without seller's express instructions. Buyer must provide in writing the order number and describe all defects associated with the order.

#### 12. LIMITATION OF LIABILITIES; INDEMNITY

a) IN NO EVENT WILL SELLER BE LIABLE TO BUYER OR TO ANY THIRD PARTY FOR ANY DELAY, FAILURE TO GIVE NOTICE OF DELAY, LOSS OF USE, SECURITY OR DATA BREACH, LOSS OF REVENUE OR PROFIT OR LOSS OF DATA, RECALL COSTS, SERVICE INTERRUPTIONS, DOWNTIME, TESTING, INSTALLATION, REPLACEMENT, OR REMOVAL COSTS, OR FOR ANY CONSEQUENTIAL, INCIDENTAL, INDIRECT, EXEMPLARY, SPECIAL OR PUNITIVE DAMAGES, WHETHER ARISING OUT OF BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE), OR OTHERWISE, REGARDLESS OF WHETHER SUCH DAMAGE WAS FORESEEABLE AND WHETHER OR NOT SELLER HAS BEEN ADVISED OF

Technical Support  
+1 (949) 261-1920

Same-Day Shipping,  
Even Custom  
Cable Assemblies

THE POSSIBILITY OF SUCH DAMAGES. SELLER'S AGGREGATE LIABILITY FOR ANY CLAIMS ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT SHALL NOT EXCEED THE PURCHASE PRICE PAID BY BUYER FOR THE PRODUCTS WHICH ARE THE SUBJECT OF THE CLAIM. THE DISCLAIMERS AND LIMITATIONS IN THIS SECTION 12 WILL APPLY NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY AND TO THE MAXIMUM EXTENT PERMITTED UNDER APPLICABLE LAW.

b) Buyer shall defend seller from and against any claims, actions, proceedings, or suits brought by any third party (i) alleging infringement of intellectual property rights arising out of or in connection with seller's compliance with buyer's drawings, specifications, requirements or instructions or (ii) arising out of or in connection with the products supplied by seller and incorporated into the buyer's products (each a "Claim") and shall indemnify and hold harmless seller from any costs, liabilities, damages, fines, judgments, or expenses (including reasonable attorneys' fees) arising out of or in connection with any Claim.

### 13. EXPORT COMPLIANCE

a) Items are controlled by the U.S. Government and authorized for export only to the country of ultimate destination for use by the ultimate consignee or end-user(s) identified in the invoice. They may not be resold, transferred, or otherwise disposed of, to any other country or to any person other than the authorized ultimate consignee or end-user(s), either in their original form or after being incorporated into other items, without first obtaining approval from the U.S. Government or as otherwise authorized by U.S. law and regulations. Buyer agrees to comply with all applicable export control laws, restrictions and regulations of the United States and those of the buyer's country, and shall not export, or transfer for the purpose of re-export, any product to any embargoed country or region, including but not limited to Cuba, the Crimean Region of Ukraine, Iran, North Korea, Sudan, and Syria, or to any denied, blocked, or designated person or entity as mentioned in any such United States or EU law or regulation. Buyer represents and warrants that it is not on the Denied Persons, Specially Designated Nationals or Debarred Persons List, as identified by the U.S. Treasury Office of Foreign Asset Control (OFAC) and by the U.S. Department of Commerce, Bureau of Industry and Security (BIS), or any other United States list of prohibited persons; is not owned or controlled by any person that is on one of those lists, or is otherwise prohibited by United States or other law from purchasing the products or services hereunder, and shall notify the seller immediately if buyer's status related to the above changes. Buyer shall be solely responsible to obtain any license to export, re-export or import as may be required. Buyer also agrees that it will not use these products in connection with the proliferation of weapons of mass destruction, including missiles, nuclear, chemical or biological weapons.

b) Seller shall not be liable for delays or refusals by governmental authorities or other authorities to grant licenses or approvals, nor for suspension or revocation thereof, nor for changes in export classification. Buyer must deliver requested information, including requested end-user information, necessary for export licenses to be granted, and necessary for seller to determine if a license or other type of authorization is required.

c) For all custom orders, buyer shall provide seller with export classification information for all buyer property and information (including buyer drawings) delivered to seller in relation to this order. Export classification information includes the applicable export control classification, the country of origin and, for hardware only, the Harmonized Tariff Code. For such custom orders, seller will supply buyer with similar export classification information for products and/or information for which seller has design authority. Buyer and seller will promptly notify the other upon a change in classification information if any occurs prior to delivery.

### 14. GOVERNING LAW; VENUE

a) All matters arising out of or relating to this agreement, or a breach thereof, are governed by and construed in accordance with the internal laws of the State of California without giving effect to any choice or conflict of law provision or rule (whether of the State of California or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than those of the State of California.

b) Any legal suit, action or proceeding arising out of or relating to this agreement, or a breach thereof, will be instituted in the federal or State courts located in the city of Irvine, California or its closest California venue. Each party irrevocably submits to the exclusive jurisdiction of the courts in any legal suit, action or proceeding.

### 15. LEGAL NOTICES

Any legal notice sent to seller from buyer, required or permitted hereunder, will be deemed to have been effectively delivered if in writing and served by personal delivery or sent by registered or certified mail with return receipt requested, postage prepaid, to seller at the primary address specified as seller's place of business.

### 16. INTELLECTUAL PROPERTY

a) Notwithstanding delivery of and the passing of title in any product, nothing in these terms and conditions shall have the effect of granting or transferring to, or vesting in, buyer any intellectual property rights in or to any products.

b) The drawings, text, product depictions, logos, content, product descriptions, and organization and taxonomy of seller's website, catalogue, product guides or other documents and media owned by the seller and of the described content there within are proprietary to the seller and protected by intellectual property laws, including but not limited to United States Copyright law and United States Trademark law. Whether seller owns copyrights in these works or not, their content and the selection, arrangement, coordination and structure of the arranged content there within are the sole property of the seller. Use of the above stated materials does not give anyone the right to modify, reproduce, transmit, publish, publicly display, adapt, or create derivative works or in any way exploit any of the materials without express written permission of the seller.

c) All trademarks referenced in seller's catalog or website or depicted within any seller's documents or digital media, whether registered in United States or other countries, may not be used without permission of the respective trademark owner. This applies to seller owned trademarks as well as those of seller's suppliers.

d) SELLER MAKES NO REPRESENTATION OR WARRANTY THAT THE PRODUCTS (OR BUYER'S USE OR EXPLOITATION THEREOF) WILL NOT INFRINGE ANY INTELLECTUAL PROPERTY RIGHTS.

### 17. SOFTWARE

a) To the extent that the product or services contain or are software, seller hereby grants to buyer a non-exclusive, non-transferable, personal license to use the software and related documentation. Buyer's use conclusively evidences its acceptance of this license. Title to the software shall at all times remain with seller. Buyer agrees that the software, all enhancements, related documentation, and derivative works are, and will remain the sole property of seller and includes valuable trade secrets. Buyer agrees to treat the software and related documentation as confidential and to not copy, reproduce, sub-license, or otherwise disclose the software and related documentation to third parties. Buyer agrees to not disassemble, decompile, reverse engineer, create derivative works from or otherwise translate, customize, localize, modify, add to, or in any way alter, rent, or loan the software or related documentation unless the operation is specifically authorized by law.

b) Third party product software Licenses are separate end user license agreements ("EULA") and not issued pursuant to the above stated personal license.

c) Buyer agrees to defend, indemnify and hold harmless seller from all damages and third party claims arising from unauthorized use or transfer of the software or firmware.

d) If the software is licensed for use in the performance of a U.S. Government prime contract or subcontract, buyer agrees that consistent with FAR 12.211 and 12.212, commercial computer software, computer software documentation and technical data for commercial items are licensed under seller's standard commercial license.

### 18. CONFIDENTIAL INFORMATION

Buyer agrees that all confidential information furnished by or obtained from seller in connection with the sale of items hereunder (including product data and manufacturing process data) shall be adequately safeguarded to prevent unauthorized disclosure. Buyer agrees not to (i) disclose any such information to any other person or entity, or (ii) use such information for any purpose, other than performing authorized activities directly related to the governing contract.

### 19. TOLERANCES

Unless otherwise agreed to in writing by seller, standard tolerances as described on seller's drawings, websites and/or posted catalog datasheets shall apply.

### 20. PRODUCT LINE CHANGES

Product specifications and availability are subject to change without notice. Seller reserves the right to change specifications or discontinue items at seller's sole discretion for any reason whatsoever including, but not limited to changing market conditions, product discontinuation, component unavailability, manufacturing cost changes and errors in advertisements.

### 21. FCC PART 15 AND PART 97 NOTICE

For systems operating within the jurisdiction of the United States Federal Communications Commission (FCC), buyer acknowledges that any amplification device it purchases is intended for use only in a transmission system certified under Part 15, Part 97 or other applicable section of the rules and regulations of the FCC, or that a legal exception to this requirement applies.

### 22. ASSIGNMENT

Buyer shall not assign this Agreement or any order hereunder without the prior written consent of the seller. Any assignment in violation of the foregoing will be void and of no force or effect. Seller may assign this Agreement or any order hereunder in seller's sole discretion and without restriction. This Agreement will be binding upon and inure to the benefit of the parties, their successors, and permitted assigns.

### 23. RELATIONSHIP

Nothing in this Agreement or any product or service orders shall be construed to place the buyer or seller in the relationship of partners or joint ventures, and the buyer and seller shall have no power to obligate or bind the other in any manner whatsoever.

### 24. WAIVER

No waiver by seller of any breach of this Agreement by the buyer shall be considered as a waiver of the subsequent breach of the same or any other provision.

### 25. SEVERABILITY

If any provision or portion of this Agreement shall be adjudged invalid or unenforceable by a court of competent jurisdiction or by operation of any applicable law, that provision or portion of this Agreement shall be deemed omitted and the remaining provisions and portions shall remain in full force and effect.

### 26. LIENS AND TITLE

a) Buyer hereby grants to seller a security interest in any property owned by the buyer (including buyer's beneficial rights to property leased by seller) in the possession of seller or any of seller's affiliates, at any time, to secure all amounts owed by buyer to seller under this Agreement.

b) In the case of repairs or overhauls performed pursuant to this Agreement, buyer grants seller a perfected security interest in all products retained in possession of seller upon which any repair or overhaul services have been performed by seller. Buyer further acknowledges and agrees that, in addition to the security interest and lien expressly granted by buyer to seller, seller shall have a lien on the product retained in possession of seller to the extent otherwise provided by law. Buyer acknowledges that the lien (whether granted by buyer or through the operation of law) for repairs or overhaul shall be for the full value of such work, and shall be superior to any lien or interest in favor of buyer, its parents, affiliates, or subsidiaries, or any other person who has knowledge of this Agreement. To the extent that seller maintains possession of product under repair, buyer agrees that seller is a secured creditor of buyer and has all the rights of a secured creditor.

c) With respect to products sold pursuant to this Agreement, buyer agrees and acknowledges that seller shall retain a security interest in such product, unless and until all payment for such products has been made and all other covenants and agreements of this Agreement have been performed in full. Accordingly, buyer agrees that it will not suffer or permit any lien or encumbrance to be established that effects the title to the product sold by seller pursuant hereto until seller has been paid in full. Buyer agrees that, in the event of buyer's insolvency, or in the event that any petition is filed by or against buyer under Chapter 7 or Chapter 11 of the Bankruptcy Code, seller may, at its discretion, recover all products sold pursuant to this Agreement and/or seek damages or costs under applicable laws.

### 27. STORAGE FEES

A storage fee will be applied monthly up to the maximum allowed by law on all repaired and overhauled units if delivery is not taken within five (5) days of notification.

### 28. FORCE MAJEURE

Notwithstanding anything else in this Agreement, no default, delay, or failure to perform on the part of seller will be considered a breach of this Agreement if such default, delay, or failure to perform is shown to be due to causes beyond reasonable control of seller, including, but not limited to, causes such as strikes, lockouts or other labor disputes, riots, civil disturbances, actions or inactions of governmental authorities or suppliers, epidemics, war, embargoes, severe weather, fire, earthquakes, acts of God or the public enemy, nuclear disasters, or default of a common carrier.

### 29. ENTIRE AGREEMENT; CONSTRUCTION; SURVIVAL

This Agreement sets forth the entire agreement and understanding of the Parties relating to the subject matter herein and supersedes all prior and contemporaneous communications, representations, discussions, and agreements between the Parties with respect to such subject matter. The titles and section headings used in this Agreement are for ease of reference only and shall not be used in the interpretation or construction of this Agreement. No rule of construction resolving any ambiguity in favor of the non-drafting party shall be applied hereto. The word "including", when used herein, is illustrative rather than exclusive and means "including, without limitation." In the event of any termination or expiration of this Agreement, buyer's obligations to pay amounts due hereunder and arising prior to the date of termination or expiration, as well as Sections 9, 12-18, and 21-29 shall survive such termination or expiration.

#### WARNING:

Products in this catalog can expose you to chemicals including phthalates, which are known to the State of California to cause cancer and birth defects or other reproductive harm. # CONNECTOR FREQUENCY RANGE CHART

**Notes:**

- 1: BNC-75 Ohm connectors operate up to 1 GHz
- 2: SMB-75 Ohm & Mini SMB-75 Ohm connectors operate up to 4 GHz
- 3: MCX-75 Ohm connectors operate up to 6 GHz
- 4: SMC-75 Ohm connectors operate up to 10 GHz
- 5: N-75 Ohm connectors operate up to 1.5 GHz
- 6: TNC-75 Ohm connectors operate up to 1 GHz

## RF Solutions from RF Engineers

Exclusive Pasternack Distributor:

**MRC GIGACOMP**  
specialists in RF

**MRC GIGACOMP GMBH & CO. KG**
