# SPFTM Low PIM Coaxial Cables

ISO 9001 Certified

### Low Loss, Low PIM Fire Retardant Coaxial Cable Assemblies

- Excellent PIM(typical -160 dBc) for optimum system performance
- Super flexible for ease of installation
- Corrugated copper outer conductor providing greater than 100dB RF Shielding
- Wideband low VSWR typically 1.15:1 from 50 to 6000MHz covering all in-building technologies
- Durable Fire Retardant, Low Smoke Polyolefin Outer Jacket is Suitable For Riser Use

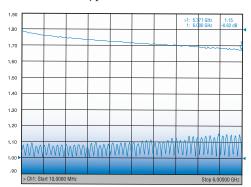

## SPF-250, SPF-375, SPF-500 50 Ohm low loss low PIM coaxial cable assemblies

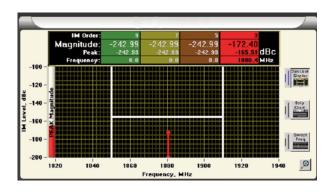

- Standard assemblies in 1, 2 and 3 meter lengths with popular connector combinations
- Custom length assemblies are available
- 10 year Times Microwave warranty

### **About TIMES MICROWAVE SYSTEMS**

Times Microwave Systems, was founded in 1948 as the Times Wire and Cable Company. Today, the company specializes in the design and manufacture of high performance flexible, semi-flexible and semi-rigid coaxial cable, connectors and cable assemblies. With over 60 years of leadership in the design, development, and manufacture of coaxial products for defense microwave systems, Times Microwave Systems is the acknowledged leader, offering high tech solutions for today's most demanding applications.

Cable assemblies from Times Microwave Systems are used as interconnects for microwave transmitters, receivers, and antennas on airframes, missiles, ships, satellites, and ground based communications systems, and as leads for test and instrumentation applications.

As a highly specialized and technically focused company, Times Microwave Systems has been able to continually meet the challenges of specialty engineered transmission lines for both the military and commercial applications, drawing upon our:

- Thousands of unique cable and connector designs
- Exceptional RF and microwave design capability
- Precise material and process controls
- Unique in-house testing capabilities including RF shielding/leakage, vibration, moisture/vapor sealing, phase noise and flammability
- Years of MIL-T-81490, MIL-C-87104, and MIL-PRF-39012 experience
- ISO 9001 Certification

In 2010, Times Microwave Systems introduced its Times-Protect<sup>™</sup> line of lightning and surge protection solutions to address the challenging needs of wireless systems in the 21st century.

With over 60 years of Times Microwave Systems aerospace cable and connector technology experience and unparalleled design expertise, Times Microwave Systems' staff of Field Applications Engineers can help to provide the right solution for your interconnect applications.
